

FAST AND EVEN 'FUN' TO APPLY

Peter Bray
Woodcare Consultancy
www.cutek.com.au

Just how fast can you apply CUTEK Extreme?
Well, let me put it this way, if you have ever used another coating, deck stain or oil, you will never go back after using CUTEK. There are many reasons which I will cover in more detail in other articles, but a few of the big ones are:

1. Can be applied on the hottest day even in direct sun.
2. No overlap marks, drips or runs.
3. No need to wipe.
4. Never sand or chemically strip for ongoing maintenance.

As many of our customers have said before,
"Just how many good features can one product have?"
And;
"Coating our deck with CUTEK is fun and it's very rewarding to see the finished result".
