

CUTEK® MOULD CLEANER

CUTEK® Mould Cleaner is an environmentally friendly, biodegradable mould killer.

Environmentally minded – Environmentally friendly and biodegradable mould killer

Safe formula – Chlorine-free oxygen bleach

Powerfully kills mould – Kills mould and removes contaminates from substrates

Economical – A little goes a long way

Easy to use – DIY friendly with a professional result

CUTEK® Mould Cleaner kills mould and sterilises surfaces for application of CUTEK® Extreme CD50 or CUTEK® Wood Preservative.

It is suitable for various timber species and substrates.

CUTEK[®]

MOULD CLEANER

COVERAGE & DILUTION

Spreading rate is approximately 1L of diluted CUTEK[®] Mould Cleaner per 5-8m² of surface area to be restored.

IMPORTANT INFORMATION

CUTEK[®] Mould Cleaner is an environmentally friendly, biodegradable mould killer. When used according to instructions, it will kill mould and prepare the substrate for CUTEK[®] oil. Other stubborn staining, like iron stain, might not be removed. For difficult stains and natural timber colour restoration, use CUTEK[®] Restore.

ALWAYS test product on a small test area prior to applying to any large sections. As the species and condition of the timber can vary significantly, testing will enable you to accurately estimate the time and amount of CUTEK[®] Mould Cleaner required to complete your project. If there is any visible residual mould after proper cleaning, repeat the cleaning process and/or adjust the cleaning technique.

NOTE: Some mould spores are not visible to the naked eye, so cleaning a substrate with CUTEK[®] Mould Cleaner prior to coating can improve the coating's performance.

PRECAUTIONS

Before you begin to Prepare and Protect your timber, note the hazards and precautions and ensure that you have obtained and know how to use the correct safety equipment. CUTEK[®] Mould Cleaner is a hazardous chemical. It is important to refer to the health and safety considerations listed in the Safety Data Sheet (SDS) prior to commencement of your project. When using CUTEK[®] Mould Cleaner, all adjacent surfaces and vegetation must be adequately protected.

It is also important to be aware of the potential for wind drift into areas with cars or pedestrian traffic when rinsing. Water flush all equipment, vegetation, paths, concrete, asphalt and other adjacent surfaces before and after contact.

DO NOT SWALLOW

A full list of precautions and the SDS is available at www.CUTEK.com.au
